

Animal Matters

Each of the stuffed animals has a different value and the sum of each row and column is given, except for the last two. Can you determine the value of each animal and then find the two missing sums?

				\$22.00
				\$25.00
				\$25.00
				_____
\$26.00	\$23.00	\$25.00	_____	

by Sherry Timberman

Answer:
 bottom row = \$26.00
 last column = \$24.00
