## Magic Seeds

A carnival is in town and you go with your family. You play a game and win a bag containing five seeds. The attendant tells you that they are magic seeds. He also tells you what to do with the seeds but you think what he tells you is odd. You wonder if the seeds really are magic or just plain seeds.

On the lines below, describe what the attendant told you to do with the seeds. Then draw a picture of what happens when you did what you were told.

The attendant told me to \_\_\_\_\_
